Evergreens for Snow Sheds.

Chicago, May 14.-The Chicago Great Western Rallway Company has adopted a novel plan for protecting its right of way from drifting snows, which so frequently impede train operation. The company has ordered several hundred thousand ever green trees from an Iowa nursery, and will plant them thickly along the right of way on all of the main tracks of the com-pany. In time the trees will take the place of the board snowbreshs, which are con-tinually getting out of place, need almost constant repair and frequent replacing at considerable expense.
